HSSC 503:

CURRENT ISSUES IN THE HISTORY OF MEDICINE

Thursday, 1:30-4:30
p.m.
Stiteler Conference
Room

David S. Barnes

323 Logan Hall

(215) 898-8210

dbarnes@sas.upenn.edu

Office Hours: TBA
or by appointment

Description:

This seminar surveys a variety of popular and scholarly approaches to the study of medicine and its history, ranging from traditional physician-centered narratives to more recent cultural and epistemological methodologies. The potential value of journalistic, sociological, anthropological, geographical, and other approaches to the historical study of health, disease, and health care will be explored. The course will also focus on the practical side of academic life, including the joys and difficulties of graduate school and strategies for professional development.

Requirements:

- assigned readings, attendance, and participation in discussion;
- discussion questions based on assigned readings, submitted electronically prior to class meetings;

- periodic critiques (in writing) of classmates' work;
- one short paper on scholarly citation practices, 5-7 pages, due October 14.
- the design (text only) of a pedagogical web site, including interpretive essays, due December 11.

Readings: Assigned books are available for purchase at Penn Book Center. Articles and additional readings will be provided through the History and Sociology of Science Department's informal reserve area in the third floor lounge, Logan Hall.

ASSIGNED READINGS

WEEK 1 September 4

Introduction and Overview
(no assigned readings)

WEEK 2 September 11
